Customer Reviews

I bought this book for a 4th grader who has challenges with Lang. Arts. I like this 3rd grade book as it's not very easy or difficult. It has alternating week for comprehension and grammar, which is good. I like the Common Core 4 today series for daily practice.

I teach second grade. I purchased this third grade book for my advanced students. Teachers must push advanced students to reach personal goals too.

I was so excited about this book, and it really does have some great stuff. I like how it alternates weekly with reading and language. Unfortunately, I teach in an area where most of my students are far below grade level. Even my on level kids have some difficult with this. I will be buying the 2nd grade and 1st grade books to reach all levels.

This is a good resource to use weekly with your students. One week is reading and the next week is English. The passages are high interest and have caused my students to do more research after reading.

They daily activities are way to short and I don't see how they help any students learn anything. We did all of the week's activities in one day, which made us finish the book super fast. I would probably buy a grade level higher, if your child is reading on level.

This is the same book that my son's teacher uses. It helps him to review with the common core standards. It has a lot of examples and practice that they will need. I will definitely get the next grade next year.

My son, who hates homework, likes this book. The passages are interesting because it moves through the little story in small sections with questions. He did a little more than I asked because he wanted to find out how it ended. It's very good reading comprehension practice and not difficult.

I thought the book would be just language skills, but alternates between one week reading comprehension and one week of language skills and so.I already have the Reading 4 Today Book and I was looking for a book with just language skills.I love the layout of the book with the 4 days of work and then an assessment.
