Customer Reviews

When preparing for the SAT, the student will often become overwhelmed with the massive amount of information to review. This book breaks the information down to easy reading and allows for the student to find stopping points for breaks. It is informative and helpful. We are hoping it will help with the SAT scheduled for my daughter in June.

This is a great book for extra reading practice. The author gives good advice, and the passages & questions are on a par with the difficulty level of the real test.

Works for my kids

Good
