Customer Reviews

We have studied over 100 Classroom in a Book (CIB) volumes including all 5 of them for Dreamweaver (Dw). The first one for CS3: Dw 9.0 was simple and incomplete. The second one (CS4: Dw 10.0) was challenging where it didnâ ™t need to be. When Jim Maivald took over the Dw CIB series for CS5: Dw 11.0, the learning doors flew wide open. However, this edition (Dw CC: 13.0) is admittedly the most difficult of the 5 for us to work with. Thatâ ™s not to say that thereâ ™s anything wrong with this edition, because, thereâ ™s no book on Dreamweaver which we can recommend more highly than this. The challenge is with something otherwise fabulous: Adobe keeps updating the app with new features. Thatâ ™s what Creative Cloud (CC) apps are supposed to do. Adobe has promised to make them better and better, every few months. However, following lessons to the letter, in CIB or any other structured lessons, are made a little more difficult by that. The same is true for the current CIBs of two other Adobe web-based apps: Muse (Mu) and Edge Animate (An). We put this out there at the top of this review.Weâ ™ve been designing websites for eighteen years. Our first client was NBC News.If youâ ™re wondering why a couple who are both Adobe Community Professionals (ACP) and have been in web design for so long bothers to study CIBs, word for word, itâ ™s all about those ongoing changes that we mentioned.At this point itâ ™s appropriate to note that as ACPs we interact with plenty of people at Adobe and many of our fellow ACPs are authors and presenters. From time to time we run across Jim Maivald, this bookâ ™s author. Heâ ™s a Facebook friend of ours. Though we have never met or even talked on the phone, itâ ™s not as if heâ ™s a complete stranger to us.
