Customer Reviews

I cannot recommend this book, it was published 1979. It is a good International Recipes book but the Food Processor is used to make just "one small item" in the recipe. I was looking for a book that the bulk of preparation was done using the food processor. If you want to cut down and short cut "food prep time" this book will not help. Barbara Plemmons

This is my favorite cookbook, even if I don't use the food processor for all the recipes, the variety of recipes is wonderful. I especially recommend the guacamole, country patÃ©, paella, and Moroccan cous cous.

Obviously chefs breaking down the classics into user friendly format. Ignore the food processor part and dig the ingredients portions and techniques. I wish they would have included the classic name with the classic dish. A jewel.
