Synopsis

Here is the comprehensive guide to forty years of collectible Swedish-made reels. It contains background information on every manufacturer and discusses every production model made between 1940 and 1980. It includes baitcasters, spinning, and fly reels. With over 675 color photographs, vintage advertisements, and patent drawings, plus a guide to current values, it is a must have reference book for the collector and dealer alike. Today Swedish-made fishing reels are collected all over the globe and are among the most prized. There are several international collector clubs dedicated to the Ambassador alone, and many models bring top dollar at the auction block.

Customer Reviews

Very thorough info on the early ABU line. I learned a lot of things, goes into depth, only wish there was more on the baitcasting line of reels. A lot of the info is in reference to other styles of reels which naturally is good for people collecting different styles. I only had wished that it had covered the 2500 line of reels more in depth. The info on the Record line, early Garcia line of 5000's, etc. is very good.

Nice book for those even slightly interested in the older Swedish reels. Personally I would have liked

it if the book had extended a bit more in to the modern reels, but I guess every good book leaves one wanting...

Personally, I loved this book. When it comes to fishing reels, I can't get enough. They are awesome. I only wish there was a sequel.

bought as a gift for my hubby, and he loves it! Its just what he wanted and expected it to be!

Very good information, the best book on abu's yet. very good illustrations, great print and would like to know more about your prices in todays market?
