My daughter and her husband are vegans. These days they come to us as guests and we want to surprise them with a vegan lunch. For this reason I took this book. My wife has prepared something out of this book and I'm really impressed! I did not believe that vegan diets is such a delicious. I can not wait to see my daughter and share this experience with her. And this book is for every recommendation! The recipes are delicious and easy to prepare. And above all, all this is very healthy.

Amazing book, that teaches me new things, Like the Crockpot Sweet Potato Lentils and Teriyaki Tofu with Kales and Rice, and It was very tasty and I can wait to try them all. Compare this book with the last one I've read, This one is more informative, detailed and easy to understand the book. Unlike the last one

The book has information on how vegan diet works to help you lose weight and stay this way. As for me the given recipes come with nutritional information as well, aside from being healthy and delicious, these recipes are also easy to make so you don't have to worry about keeping up and maintaining your diet.

I am not a vegetarian but I know that the best diet to be healthy and fit is the vegan diet. This book has 25 vegan recipes which are not ordinary ones. The recipes are delicious and easy to prepare. The ingredients are simple and easy to find even from the kitchen. I definitely like all the recipes and recommend it to all.
