Customer Reviews

This book was definitely not a waste of money. It gives ideas for family traditions, homemade gifts, and lots of good recipes. This Gooseberry book would make a good holiday gift for any family member or friend who enjoys homemade items or craft activities.

Every one of this series is read and enjoyed both for the tasty, homemade, loving recipes but equally for the hand drawn country illustrations. the spiral binding is handy in the kitchen and the cover makes it a cute addition to a shelf or table set up for the holidays.. No I don't work for the company I'm just a long time fan! Great for gifts, too. They are WELL received !

I have several of the Gooseberry Patch cookbooks but I have to admit that this is one of my favorites! Mainly because I like reading about the traditions and I will read it all throughout the year. One of the best hints is to help defray the cost of a Christmas tree during the holiday season, we decorate an old coffee container and tape it around the top and throw in all of our loose change all year round and believe me by December you will have enough money to buy a very nice tree and it doesn't seem to hurt the pocket book so much.

I love cookbooks and this is a vet nice one too. It has writing about other peoples traditions for Christmas, which is very interesting and give alot of new ideas to add to my Christmas's to come...I like it alot!!!

A great cookbook with lots of recipes for Christmas. It is very interesting to read, as well as a cookbook. I would recommend it to anyone who loves good recipes.
