Merino: Handspinning, Dyeing And Working With Merino And Superfine Wools

Synopsis

This book describes the relatively simple preparation and spinning techniques which overcome the problems often associated with handcrafting superfine wools, and provides a detailed appraisal of the characteristics of merino - one of the most challenging types of fleece. Margaret Stove is the winner of a 1990 Achievement Award from the New Zealand Spinning, Weaving and Woolcrafts Society. --This text refers to an alternate Hardcover edition.

Book Information

Customer Reviews

This book is an excellent resource. Years ago it held the key to spinning lace weight yarn for me. All the information is there still. It's clear and concise with great illustrations. I'd love to see it back in print.

Very good book.
