Bought this book for my niece who's a good high school age baker. After looking at a number of baking books at the store, this one was head and shoulders above the rest. It has tips and techniques blocks throughout the book. Love it. I use a lot of recipes from the Internet, but you need a good cookbook to compare recipes to, so you can figure out if the proportions are correct, how many dozen they'll really make, etc. Still looking for a good general cookbook of the same type for my younger relatives.

I baked a few recipes from this the same week I received it...and continue. My family thinks I should open a bakery! These recipes are easy to follow and there are alternative ideas if you don't have certain tools. In addition to yummy dessert recipes, there are also some meal and appetizer recipes like samosas, quiches.

Wonderful book for all you bakers out there! Lots of new techniques and terrific recipes. Really an all time great cookbook.

I've wanted this book for a long time and it didn't disappoint. I have already cooked from it and I am happy I got it.

Recipes are easy and delicious
