## **Customer Reviews**

I absolutely love these A-Z series from Australian publisher. I bought many of them on different needlework subjects and they are all outstanding. This particular one on ribbon embroidery features a various techniques as well as completed projects. The techniques are step by step, with each step photographed and described. It is very easy to teach yourself ribbon embroidery with this book. All projects provide a supply list. I own multiple books on ribbon embroidery as well and can say that this book is one of the most comprehensive on the subject. I also recommend books by Ann Cox, Helen Ericsson and Di Van Niekerk if you want to master this craft.

I had very high expectations about this book, sadly it did not keep upto my expectations. It has the usual A-Z format with step by step photographs with excellent instructions on the Stitches, but the

designs are outdated and not that interesting. The Designs were done by many famous Designers around the world, still it lacks something.. There are many ribbon stitches in this book which are covered in the "A-Z of Embroidery Stitches" book. The new "A-Z of Embroidery Stitches" is excellent! I recommend it (A-Z of Embroidery Stitches) more than any other book i own on the topic & that book is Well worth the money.I would recommend Ann Cox's A-Z of Silk Ribbon Flowers more than this for Projects but when you consider Instructions, this gains preference.

Ribbon embroidery is wonderful on its own or as an addition to your regular embroidery work. Whether you have ever worked with the method of ribbon embroidery or not this will help all skill levels. The directions and colour photos are clear. The general information is extremely helpful. There are almost 30 stiches and techniques and over 80 designs. Patterns are illustrated in colour. You would be able to complete many projects by using this. This is the ultimate book for ribbon embroidery.

I do like it but I think it could have been a bit more comprehensive. As a newbie to the art it is very helpful.
